Ladies and Gentlemen

Re: FILE NO. 82-34753

Wolfson Microelectronics plc (the "Company")
Supplemental Submission Pursuant to
Rule 12g3-2(b) under the Securities Exchange Act of 1934

PROCESSED

SEP 0 6 2007

We are submitting the information indicated on Schedule I pursuant to the Company's exemption from the registration requirements of the Securities Exchange Act of 1934 under Rule 12g3-2(b) thereunder. The Company's counsel received an acknowledgement postmarked November 24, 2003, from the staff of the Commission confirming receipt of the Company's initial submission.

The information listed on Schedule I and submitted herewith is information that may be material to investors that the Company:

- has made or is required to make public pursuant to the laws of Scotland;
- 2. has filed or is required to file with the United Kingdom Listing Authority ("UKLA") or the London Stock Exchange and which was made public by the UKLA or the London Stock Exchange; and
- has distributed or is required to distribute to the holders of the Company's securities.

Pursuant to Rule 12g3-2(b)(1)(i) under the Exchange Act, we are enclosing one (1) copy of each of the documents described on Schedule I. This information is being furnished with the understanding that such information and documents will not be deemed "filed" with the Commission or otherwise subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, and that neither this letter nor the furnishing of such documents and information shall constitute an admission for any purpose that the Company is subject to the Exchange Act.

If you have any questions or require any additional information please contact either the undersigned at the Company on 011-44-131-272-7429 or Timothy Corbett, of Wilmer Cutler Pickering Hale and Dorr LLP (our external legal counsel) at 011-44-20-7645-2509.

Please acknowledge receipt of this letter and the enclosures by stamping the enclosed copy of this letter and returning it in the enclosed envelope to Timothy Corbett, Wilmer Cutler Pickering Hale and Dorr LLP, 60 State Street, Boston, MA 02109.

Yours faithfully

Mark Cubitt

Finance Director and Company Secretary

Wolfson Microelectronics PLC

01 August 2007

Edinburgh, 1 August 2007

Wolfson Microelectronics plc ("the Company")

Notification in relation to acquisition of shares by the trustees of the Wolfson Microelectronics No. 1 Employees Share Trust ("the No. 1 Trust")

The Company was notified on 1 August 2007 by the No. 1 Trust that, on 31 July 2007, the No. 1 Trust purchased 1,463,491 ordinary shares of 0.1 pence each in the Company at a price of £2.85 per share.

We hereby give notice that the following directors have a potential interest in the ordinary shares held by the No. 1 Trust as some of the members of the class of discretionary beneficiaries of the No. 1 Trust:

Mark Cubitt Alastair David Milne David Allen Shrigley John Martin Urwin

Each executive director is interested, as a member of the class of potential beneficiaries of the No. 1 Trust, in 2,937,189 shares. This figure includes 24,230 shares held by the No. 1 Trust as beneficial co-owner under the terms of an Executive Shared Ownership Plan (ExSOP) agreement.

These notifications are made in accordance with Disclosure and Transparency Rule 3.1.4R(1) (b).

Interim Report

for the period ended 1 July 2007

About Wolfson

Wolfson Microelectronics plc (LSE: WLF.L) is a leading global provider of high performance, mixed-signal semiconductors to the consumer electronics market.

Renowned internationally for our high performance audio and ultra low power consumption, Wolfson delivers the audio and imaging technology at the heart of some of the world's most successful digital consumer goods. Applications which include mobile phones, MP3 players, digital cameras, flat panel televisions, gaming consoles, Hi-Fis, all-in-one printers and scanners, and DVD players and recorders.

Wolfson technology enables exciting new user experiences, connecting the digital world to the human senses. If a digital product can capture an image or play a sound Wolfson aims to have a product that will allow it to perform these tasks better.

Wolfson's headquarters are in Edinburgh, UK, where we employ some of the most experienced and innovative designers and engineers in the industry. Our customers are located worldwide and so are our sales and engineering teams with offices in the USA, Japan, China, Taiwan, Korea, Singapore and India. We pride ourselves on the level of service we offer our customers, with both engineering and sales support available right across the global network.

Financial and operational highlights

Second quarter 2007 highlights:

Revenues at the top end of guidance at \$49.5m (Q2 2006: \$47.7m)

Gross margin improved to 52.8% (Q2 2006: 51.6%)

Fully diluted earnings per share was 5.0 cents (Q2 2006: 7.0 cents)

Net cash balance at 1 July 2007 increased to \$111.1m

First half 2007 highlights:

Pre-tax profits were \$12.5m (H1 2006: \$22.0m) reflecting increased investment in R&D and Sales & Distribution to pursue continued product leadership and widening technology offering (AudioPlus™)

Fully diluted earnings per share amounted to 7.6 cents (H1 2006: 13.5 cents)

Growing presence in handset segment including next generation multi-media handsets and market share growth in Korean manufacturers

Continued strong position in the Portable Media Players (PMP) market

Strong growth in other segments including Portable Navigation Devices (PND), Flat Panel TV (FPTV) and automotive

Wolfson benefited from a pick-up in most of the end markets in the second quarter. This is expected to continue through the seasonal ramp in the third quarter. With the order backlog at its highest level, Wolfson is set for the best revenue quarter in its history and therefore remains confident of delivering current revenue expectations for the full year.

Dave Shrigley Chief Executive Officer

Overview

Wolfson is pleased to report revenues at the top end of its guidance as the Company saw a solid recovery in the second quarter. Excess inventory was used up in the channels and some customers prepared to launch new products in the market.

For the half year, revenues were \$89.6m (H1 2006: \$93.6m). Pre-tax profits were \$12.5m (H1 2006: \$22.0m) reflecting increased investment in R&D and Sales & Distribution. These were adversely impacted by sterling strength against the US dollar, which increased total overheads by \$2.3m compared to the prior first half year. Gross margin for the half was 52.8% (H1 2006: 51.2%). Fully diluted earnings per share amounted to 7.6 cents (H1 2006: 13.5 cents).

For the second quarter, revenues grew by 23% sequentially and 4% compared with the corresponding period last year. Gross margin in the second quarter at 52.8% was comparable with the first quarter, against 51.6% in the corresponding period last year. Fully diluted earnings per share was 5.0 cents (Q2 2006: 7.0 cents).

Outlook

- » Current backlog at record levels reflecting strong broad based bookings ramp through Q2 2007
- » Q3 2007 revenue forecast of \$63-68m
- » Gross margin expected to remain around 53%
- Confident of delivering current full year revenue expectations

The quarter and half year results are summarised in the tables below:

Quarter Results Summary

	Q2 2007	O2 2006	Q1 2007
	\$1000	\$'000	\$'000
Revenue	49,458	47,678	40,164
Gross profit Distribution and selling costs Research and development expenses Administrative expenses	26,122	24,624	21,231
	(5,257)	(4,523)	(5,511)
	(10,061)	(7,254)	(9,179)
	(3,730)	(1,983)	(3,357)

Profit for the period	5,941	8,318	3,106

Half Year Results Summary

	H1 2007	H1 2006
	\$'000	\$'000
Revenue	89,622	93,576
Gross profit	47,353	47,880
Distribution and selling costs	(10,768)	(8,993)
Research and development expenses	(19,240)	(13,670)
Administrative expenses	(7,087)	(4,610)
Operating profit	10,258	20,607
Net financing income	2,284	1,424
Profit before tax	12,542	22,031
Income tax expense	(3,495)	(6,012)
Profit for the period	9,047	16,019

Operational review

Wolfson returned to growth in the second quarter as consumer electronics companies prepared to launch new products and inventory correction was completed.

Design win momentum remains strong across all business segments. The top 10 customers accounted for 56% of overall revenues in the first half, broadly similar to the equivalent period last year.

Revenues in the portable segment were \$63.8m (H1 2006: \$65.9m), revenues in the consumer segment were \$16.2m (H1 2006: \$15.9m) and revenues from imaging segment were \$9.6m (H1 2006: \$11.8m).

The AudioPlusTM Power Management product received its first volume order from a major customer, setting up its emergence into the market in Q4 2007. A second product will be sampled later this year and the Company has further follow-on products in development.

The Company made good progress in increasing its market share with its two largest Asian handset manufacturer customers, which account for approximately 21% of the global market, and remain a key element of the Company's growth strategy. In the first half, revenues from these manufacturers were approximately 14% of overall sales compared to 10% in the corresponding period last year.

As predicted, demand for PMP improved in the second quarter and revenues in this application were approximately 14% higher than the previous quarter. However, the first quarter inventory correction ensured that PMP revenues in the first half were 13% lower than the equivalent period last year.

The Company benefited from the continuing demand for satellite navigation systems (PND), with growth of 105% on H1 2006, where Wolfson's products are incorporated into devices of substantially all the leading manufacturers.

The growth in the consumer audio segment, where Wolfson's semiconductors are typically used in mains-powered electronics goods, was primarily due to growth in revenues from flat panel TVs and automotive markets. Revenues from these applications now represent approximately 5% and 3% respectively of overall revenues in H1 2007.

The game console market saw a tripling in sales in the second quarter compared with the first quarter, albeit from a small base, with encouraging signs that this recovery will continue in the second half. The Multi-Function Peripherals (MFP) market declined by 25% on H1 2006. Some recovery of this is forecast in the second half as we go through a product renewal cycle.

Financial review

Half year ended 1 July 2007

Revenue for H1 2007 amounted to \$89.6m compared to \$93.6m in H1 2006, a year on year decline of 4%. This reflects the weak Q1 2007 with a recovery in Q2 2007, as excess inventory was used up in the channels and some customers prepared to launch new products in the market.

Gross profit for the H1 2007 was \$47.4m, down 1% from \$47.9m in H1 2006. The gross margin of 52.8% compared to 51.2% in H1 2006, an increase of 160 basis points through a combination of cost reductions and operating efficiencies offsetting average selling price pressure.

Research and development expenses in H1 2007 were \$19.2m, up 41% year on year (H1 2006: \$13.7m). Research and development expenditure as a percentage of revenues in H1 2007 was 21% compared to 15% in H1 2006. This increase was due mainly to headcount, reflecting investment to pursue continued product leadership, a widening technology offering (AudioPlusTM) and the adverse impact of foreign exchange.

Distribution and selling expenses in H1 2007 amounted to \$10.8m or 12% of revenue compared to \$9.0m or 10% of revenue in H1 2006.

Administrative expenses in H1 2007 were \$7.1m or 8% of revenue, compared to \$4.6m or 5% of revenue in H1 2006. A major element of this being the increased expense associated with the strengthening of the management team.

Total overheads in H1 2007 of \$37.1m compares to \$27.3m in H1 2006, an increase of \$9.8m or 36%. An analysis of the rise is given in note 6 of this interim report, with the principal drivers being increased headcount (343 v 273), sterling strength against the dollar (1.975 v 1.78) and increased IFRS 2 option costs.

Operating profit in H1 2007 was \$10.3m or 11.4% of revenue, compared to \$20.6m or 22% of revenue in H1 2006. The decline reflects the higher overheads explained above, with a strong recovery forecast for the second half of the year as revenues ramp and the Company benefits from its operational gearing.

It is anticipated that the total effective tax rate for 2007 will be approximately 28% principally reflecting the availability of tax allowances on research and development expenditure. However, the amount of current tax payable is reduced by tax relief in respect of gains arising on the exercise of share options by employees.

Fully diluted earnings per share amounted to 7.6 cents in H1 2007 compared to 13.5 cents in H1 2006.

Cashflow and Balance Sheet

Cash and short-term deposits amounted to \$111.1m at 1 July 2007 compared to \$103.3m at 1 April 2007 and \$99.4m at 31 December 2006. In H1 2007 \$3.2m was paid on the acquisition of Oligon in January 2007 and \$9.8m was paid in February 2007 to purchase shares to cover option grants.

In H1 2007 net cash inflow from operating activities amounted to \$24.2m compared to \$15.5m in H1 2006.

Cash outflow on capital expenditure was \$2.0m in H1 2007 compared to \$3.8m in H1 2006. However, included within creditors at 1 July 2007 is \$3.7m related to capital items, mainly being new test equipment.

The value of inventories held at 1 July 2007 was \$23.9m compared to \$20.5m at 1 April 2007 and \$24.7m at 2 July 2006. Inventory levels at 1 July 2007 are considered to be adequate to meet the expected seasonal increase in demand in Q3 and represents 97 days.

Trade and other receivables amounted to \$30.6m at 1 July 2007 compared to \$24.9m at 1 April 2007 and \$28.9m at 2 July 2006. The average number of days sales outstanding at 1 July 2007 was 44 days compared to 42 days at 1 April 2007.

Trade and other payables amounted to \$29.6m at 1 July 2007 compared to \$20.8m at 1 April 2007. The average number of days purchases outstanding at 1 July 2007 was 82 days compared to 70 days at 1 April 2007.

Strategy update

AudioPlus™ Strategy

The Wolfson brand is known for high fidelity audio quality and performance and the Company's ultra high performance flagship products are employed by the world's leading high-end Hi-Fi manufacturers. Bringing this same leadership audio capability to portable and consumer devices makes Wolfson a supplier of choice for many of the world's tier 1 consumer Original Equipment Manufacturers (OEMs).

Building upon this audio foundation, Wolfson has developed its AudioPlus™ growth strategy. Adding incremental mixed-signal products that comprise key elements of the audio signal chain, the Wolfson strategy enables new or improved end user experiences and more highly optimised – lower cost solutions.

The first phase of Wolfson's growth strategy, the AudioPlusTM Power Management product, will enter the market place in Q4 2007. The second phase of the growth strategy is AudioPlusTM MEMS technology for silicon microphone products, spearheaded by the acquisition of Oligon in January. Products are expected to enter the market place in 2008.

The third phase is enabled through the acquisition of Sonaptic Limited ("Sonaptic"), adding acoustic technology to the Wolfson AudioPlus™ strategy.

- » First volume order received for the AudioPlus™ Power Management chip
- » AudioPlus™ MEMS microphone progressing well with strong customer interest

Acquisition

The Company acquired Sonaptic on 23 July 2007 for an initial consideration of \$24.8m.

Sonaptic is a world leading provider of advanced micro-acoustic technologies based on more than 12 years of research by Sonaptic's founders. Sonaptic technology and expertise includes advanced active noise cancellation, sound enhancement, 3D sound, and acoustic echo cancellation for consumer electronic applications.

The acquisition will provide the third part of Wolfson's AudioPlusTM growth strategy which is aimed at building on Wolfson's world class position in high fidelity audio semiconductors. The acquisition will enable Wolfson to offer advanced active noise cancellation, sound enhancement, 3D sound, and acoustic echo cancellation in combination with its existing high quality, low power audio products for consumer electronic applications. These include PMP, mobile handsets, portable gaming consoles, FPTV, PND and automotive applications.

Wolfson expects the first new products to be ready by the middle of 2008 with revenues being generated from end H2 2008. Sonaptic acoustic technology will be added into existing Wolfson products and completely new chips providing dedicated functions such as noise cancellation. It is anticipated the acquisition will be accretive, after amortisation, from 2009.

- Best in class acoustic technology is being acquired with Sonaptic Ltd., which will enable dramatic improvements to the user experience in handsets and virtually all focus market segments
- Acquisition increases the size of Wolfson's addressable markets, particularly in the mobile, PND and TV space by broadening its customer, product and geographic base
- » Expected to be accretive, after amortisation, from 2009

Outlook

Wolfson has a broad customer base and benefited from a pick up in most of the end markets in the second quarter and this is set to continue as the Company expects to benefit from a strong seasonal ramp up in demand during the third quarter.

The Company ended the second quarter with sales order backlog at its highest ever level and the Company is set for the best revenue quarter in its history. Revenues in the third quarter are expected to be in the range \$63m – \$68m and gross margins are anticipated to remain around 53%. As a result, the Company is confident of delivering to current full year revenue expectations.

This document contains certain statements that are not historical facts, including statements about Wolfson's expectations and beliefs and statements with respect to its business plan, operations and financial performance and condition and other objectives. Such statements are forward-looking statements. These statements typically contain words such as "intends", "expects" "anticipates", "estimates", "airns", "believes", "assumes", "should", and words of similar import, which are predictions of or indicate future events and future trends. Undue reliance should not be placed on such statements, which are based on Wolfson's current plans, estimates, projections and assumptions. By their nature, forward-looking statements involve known and unknown risk and uncertainty because they relate to events and depend on circumstances which may occur in the future and which in some cases are beyond Wolfson's control. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements. These factors include, but are not limited, to future revenues being lower than expected; increasing competitive pressures within the industry; general economic conditions or conditions affecting the relevant industries, both domestically and internationally, being less favourable than expected.

^{*} The review undertaken by KPMG Audit Pic and reported upon in page 16 covers the financial information for the half year ended 1 July 2007 but not the quarterly information.

Notes (forming part of the interim report)

1. Accounting policies - basis of preparation

Wolfson Microelectronics plc (the "Company") is a company domiciled in Scotland. This interim report contains the financial information of the Company and its subsidiaries (together referred to as the "Group") for the twenty-six and thirteen week periods ended 1 July 2007. The Group operates a thirteen week quarter with four weeks in the first two months and five weeks in the final month of each quarter.

The interim report was authorised for issue by the directors on 23 July 2007.

The financial information is prepared on the historical cost basis and is presented in United States Dollars, rounded to the nearest thousand.

The figures for the financial year ended 31 December 2006 are not the company's statutory accounts for that financial year. The statutory accounts for the year ended 31 December 2006, which were prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the EU, have been reported on by the Company's auditors and delivered to the Registrar of Companies. The report of the auditors was (i) unqualified, (ii) did not include references to any matters to which the auditors drew attention by way of emphasis without qualifying their report and (iii) did not contain statements under section 237(2) or (3) of the Companies Act 1985.

This interim financial information has been prepared applying the accounting policies and presentation that were applied in the preparation of the company's published consolidated financial statements for the year ended 31 December 2006.

2. Segment reporting

The primary format, business segments, is based on the Group's management and internal reporting structure. The Group is organised into three main business segments: consumer audio products, digital imaging applications and portable applications.

Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate expenses, including administrative expenses and facilities costs.

Notes (forming part of the interim report) continued

Operating profit	7,074	10,864	3,184	10,258	20,607	41,137

3. Income tax expense

The income tax expense for the period ended 1 July 2007 reflects the estimated total effective rate on profit before taxation for the Group of approximately 28% for the year ending 30 December 2007.

Current tax payable for the current and prior periods is classified as a current liability to the extent that it is unpaid. The amount of current tax payable is reduced by the tax relief available when share options are exercised by employees. It is not possible to predict the timing of this relief as it is dependent on the decisions of individual share option holders.

Notes (forming part of the interim report) continued

Increase in IFRS2 share-based payment expense	1.9
Total overheads for the period 1 January 2007 to 1 July 2007	37.1

Independent review report to Wolfson Microelectronics plc

Introduction

We have been instructed by the company to review the financial information for the twenty six weeks ended 1 July 2007 which comprises the consolidated income statement, the consolidated statement of recognised income and expense, the consolidated balance sheet, the consolidated cash flow statement and related notes 1 to 6. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the company in accordance with the terms of our engagement to assist the company in meeting the requirements of the Listing Rules of the Financial Services Authority. Our review has been undertaken so that we might state to the company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company for our review work, for this report, or for the conclusions we have reached.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 issued by the Auditing Practices Board for use in the UK. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with International Statements on Auditing (UK and Ireland) and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the twenty six weeks ended 1 July 2007.
